The captain calls for help over the

radio.

April 15th 1912

12am

comes to help.

The back of the ship is pulled high into the water before sinking.

An iceberg is spotted. The ship tries to steer around it. The ship is hit.

The lifeboats and lifejackets are uncovered. There are not enough for everyone.

Distress rockets are fired. The first lifeboat is lowered. It is only half full.
